SAVATION ARMY PLANS

WILL REPLACE MANY SALOONS WITH SOFT DRINK STANDS

GREAT CAMPAIGN NEXT WEEK

Christian County Work To Be Headed By Envoy Vallier and Committee.

Commander Evangeline Booth, head of the Salvation Army in this country, has announced that the Salvation Army would endeavor, after July 1, when war prohibition goes into effect, to take over a string of saloons from ocean to ocean and border to border, and that a well-defined movement in that direction had already been started.

"In these saloons the army," added Miss Booth, "will retain the bar and brass rail features, but will serve only the most harmless of soft drinks. In other words, the plan calls for a great chain of soft drink saloons which will be run as far as possible as clubs for working men and women. The main hold of the saloon upon the working man is the opportunity," said Miss Booth, "it offers for comradeship."

"The saloon has its appeal and man is a creature of social instincts. We must recognize that at all times he prefers the society of men to that of women."

Here in Hopkinsville the local Salvation Army has moved its headquarters into a house vacated by a saloon.

The great campaign to raise \$13,000,000, a nation-wide movement, endorsed by the President, will open Monday and run until May 26.

WHEAT PRICE TO BE LOWER

WILL REACH ALL WAY DOWN THE LINE FROM PRODUCER TO BAKER

STATEMENT ISSUED BY BARNES

Government Will Maintain The Guaranteed Price of \$2.25.

New York, May 16.—An immediate reduction in the price of wheat, reaching all down the line from the producer to the baker, is believed assured, according to a statement issued by Julius Barnes, wheat director, following a prolonged conference between Mr. Barnes and representatives of the grain industry, including grain handlers, millers, jobbers and bakers.

The statement issued by Mr. Barnes says:

"There was a general agreement that in order that all the wheat producers of the country should secure equal benefits, that the various trades could be bound by contracts to see that wheat trading should be only on the guaranteed price and, and if a lower basis was justified with the developments of world factors as the season advanced, this lower basis should be made to reach the consumer by trade agreements with millers and manufacturing facilities, the wheat director making the readjusting basis effective by the payment of the difference as allowed under act of Congress.

"In return for protection against a fall in price, after the guaranteed price had been made for wheat bought, the wheat director would require from the various trades contract obligations by which their trade practices and margins of profit should be subject to review and control by the wheat director.

Millers Limit Profits.

"It was suggested, for instance, that the mills agree that their total gross operating profits between wheat bought and the finished products sold should not exceed an agreed basis per barrel of flour manufactured, thus assuring immediate reflection to the consumer of any reduced price of wheat supplied to the mills.

"The jobbers expressed a willingness also to contract that their handling margins should not exceed the price fixed on an agreed basis, thus making immediately effective a lower retail price of flour when made by the mills on a readjusted wheat basis.

"The bakers are willing to enter into a contract by which they would reflect at once in their products the lower price of flour effective by the mills. In this way, down to the retail trade, there is thought to be an assurance that a reduced price of wheat should be effective immediately all down the line.

Growers Ready To Sell.

"Some of the Western Delegates expressed the view that certain sections of the producing wheat country had developed a sentiment that wheat next year might be worth more than the guaranteed price in the open markets, but the general view was that the crop promised so well that any withholding from the market under such sentiment would be unappreciable in the total volume and that most growers would be ready to market at the guaranteed price, thus sharply reducing the present price of wheat and facilitating a lower flour price with the new crop movement.

"New wheat will be moved in Texas in thirty days and from the present outlook in six weeks more they will commence a very large movement of new winter wheat. In order that seaports and interior markets should not be choked by congestion and blockade, the general opinion was that the grain corporation should continue the co-operative control with the Railroad Administration of the movement of cereal and cereal products into all the markets by all the permit system of car shipping.

STATE TICKET RAILROADED

"AGIN' DE GUVMENT," STATE AND NATIONAL BURDEN OF G. O. P. SONG

FRANKS IS THE CHIEF BRAYER

Ed Morrow Orates and Thinks He'll Do Better This Time—Cussing Wilson.

Lexington, Ky., May 14.—Kentucky Republicans in convention here Wednesday adopted a platform and named a ticket which they claim will sweep the state in November. Aside from a lively tilt over whether the present tax law should be endorsed the big gathering was marked by harmony.

Edwin P. Morrow, Somerset, in accepting in endorsement for the Republican nomination for Governor, prophesied a landslide for his party in the November election.

The convention was cut and dried in every particular, and the program as outlined weeks ago was put thru without a hitch.

E. T. Franks, Owensboro, chairman of the Republican State Central Committee, called the convention to order promptly at 2 o'clock this afternoon.

Prayer was offered by the Rev. Dr. A. W. Fortine, of Transylvania College.

Mr. Franks, in his opening speech, predicted Republican victory in November. He scored the present Democratic administration, charging that it has heaped taxes upon the taxpayers with a view of taking care of more Democratic favorites in more fat offices.

Incompetency and extravagance were charged against the National Administration by Mr. Franks. He referred to the "Hog Island Shipbuilding scandal," and the "fizzle" the government had made of its attempt to manage the railroads of the country.

"No one man can cover the mistakes of Secretary Burleson in the time allotted to me," he said.

Judge B. J. Bethurum, of Somerset as temporary chairman, took the reins of the convention in hand at 3 o'clock and began by criticizing the administration of Gov. Stanley. He said he had promised to do away with the "Fire Puffers Out" and to divorce the charitable and penal institutions from politics, neither of which he had done.

Not a single candidate for the Democratic nomination for Governor has the courage to defend the present administration, Judge Bethurum said and declared that the pardoning power in Kentucky had been outraged.

The State Textbook Commission came in for criticism at the hands of the speaker, who said that those who compose it are mere figure heads.

"Gov. Stanley, ex-officio chairman of the commission, was present at its sessions," he said, "and with the hand of tyrant dominated and controlled it."

Referring to the charge by Col. H. H. Denhardt, Bowling Green, that Edwin P. Morrow was the hand-picked candidate of the Republicans for Governor, Judge Bethurum said would admit that Mr. Morrow was "hand-picked," but not "machine-picked."

The Ticket.

Governor—Edwin P. Morrow, of Somerset.

Lieutenant Governor—S. Thurston Ballard, of Louisville.

Secretary of State—Fred A. Vaughn, of Clarksville.

Attorney General—Charles I. Dawson, of Pineville.

Auditor—John J. Craig, of Covington.

Superintendent of Public Instruction—George M. Colvin, of Springfield.

Clerk of Court of Appeals—Roy B. Speck, of Bowling Green.

Commissioner of Agriculture—W. C. Hanna, of Shelbyville.

Treasurer—James Wallace, of Irvine.
